GENERALNFORMATION

General Programs Of Study

Career Education Programs

City College of San Francisco provides Career Education (CE) to meet the needs of students, employers, and the community. CE programs are developed in cooperation with industry, organized labor, professional organizations, subject matter experts, and outside credentialing agencies to assure they are relevant and up-to-date. CE programs consist of specialized occupational training designed to:

- · qualify students for entry-level employment
- help students build or upgrade skills in elds in which they have prior experience or training
- prepare students for external certi cation or credentialing in certain elds

Credit and Noncredit Programs. Most CE programs earn college credits (or units) that may be applied toward a college degree; others consist primarily of noncredit courses. For more information about credit or noncredit classes in a speci c program, please consult the "Programs and Courses" section of this catalog.

Program Completion Awards. CE programs consist of a series of courses designed to prepare students for entry-level employment in a speci c eld of study. Upon successful completion of the program, students may earn an associate degree (A.S. or A.A.), a credit certi - cate (Certi cate of Achievement or Certi cate of Accomplishment), or a noncredit certi cate (Certi cate of Completion or Certi cate of Completency).

Certi cate programs consist primarily of CE courses, and are gener ally 12 to 30 units. Associate degree programs require 60 or more units of coursework, including courses required for the major and for General Education.

Skills Building. Students who have prior experience or training in a eld may enroll in speci c CE classes within a program in order to upgrade or build their skills, improve their employability, prepare for an external credential, or advance in their current career.

Employment. Although the College cannot promise employment, it uses various means of helping students nd positions. Instructors in career and technical elds maintain advisory committees and extensive contacts with employers, and can assist students in making valuable connections with employers. CE programs, in partnership with employers, o en have recruitment programs through which students meet employers on campus. Many programs have o -campus work experience or internship opportunities. Additionally, students can access Career Services, including Career Development Counseling and online resources, at

skudsi@ccsf.edu. Additional information is also featured on our web page: http://www.ccsf.edu/Departments/Honors.

Intensive English Program for International Students City College of San Francisco o ers an intensive English program for college-oriented students on F-1 (student) visas. e program is one semester (18 weeks) or nine weeks in length, 20 hours per week, and prepares the student for further academic study and to achieve a higher score on the TOEFL examination. A 4 or 8 week summer program is also available. For additional information, contact the Intensive English Program, City College of San Francisco, 50 Frida Kahlo Way, Box C-208D, San Francisco, CA 94112, USA or call (415) 239-3895 or visit the CCSF website: www.ccsf.edu/international. E-mail: international@ccsf.edu.

require program downloads as well as minimum hardware and so ware requirements. CCSF uses the learning management system called Canvas (https://ccsf.instructure.com) for all its online classes and Zoom as a web-conferencing tool. We strongly encourage online students to have basic experience with the Internet and we require that they have regular access to a web-enabled device. Some technol ogy tools are only accessible with a laptop or desktop. Some courses Frequent campus and community programs are also o ered by the may require students to use a webcam in order to meet the student learning outcomes, both during class and for required assignments. Some coursework may need to be recorded and submitted on video. (Students without such devices may use computers on campus in for in-person classes. Information on course o erings is listed in the online Class Schedule. Visit https://www.ccsf.edu/academics/onlinelearning for information about what to expect in an online class and guidelines for successful online learning.

Women's and Gender Studies

In Spring 1971, City College of San Francisco o ered its rst course directed speci cally to women's interests and educational objectives, Interdisciplinary Studies 20, Women in the Modern World. Its success led to the institution of the Women's and Gender Studies program, one of the rst in the nation. Today, more than thirty courses are taught in

various disciplines, focusing on the complex roles of women in society Symphony Forum e department houses Project SURVIVE, a sexual health education program that works to end sexual assault, intimate partner violence, and structural violence. Women's and Gender Studies courses are open to all students. Please see "Women's and Gender Studies" in the Symphony Forum, a self-governing student organization represent-"Announcement of Programs and Courses" section of this catalog for details.
